

PRODUCT INFORMATION

MINICOAX CONNECTORS

- ROKA MINICOAX are used as standardized interfaces for high-frequency applications, such as:
 - Autonomous driving
 - GPS telematics or navigation
 - GSM mobile communication
 - RF Bluetooth® applications
 - RF remote control
 - Driver assistance systems
 - Head up display
 - Car2Car communication
 - Internet and WLAN
- For applications up to 9 GHz and 20 GBit/s
- 360° rotatable inserts avoid cable torsion
- 7 codings for error free mating
- Highly space saving due to compact and robust design
- Deep-drawn parts ensure a high RF-performance
- In compliance with the high requirements of leading car manufacturers
- Available for coax cables
 - DACAR® 462
 - Low-loss 3.3mm (on request)
